

IROS 2011 Workshop

Assessment of Scientific and Application Topics in Robotics: the ECHORD initiative

Germano Veiga
University of Coimbra
Portugal

San Francisco
30 September, 2011

European Clearing House
for Open Robotics Development
www.echord.info

Introduction

- Objectives of the delphi query:
 - Selecting the best **technologies, application scenarios** and **product visions** for the future of robotics.
- Agenda:
 - Introduce briefly the SRA classification structure.
 - Present the ECHORD experiments classified according to SRA
 - 1st delphi query

European Clearing House
for Open Robotics Development
www.echord.info

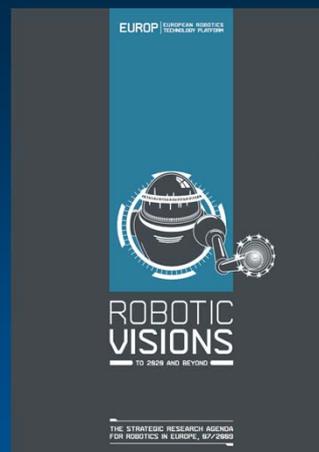

Introduction

- How do we reach this classification:
 - Started with several frameworks: Strategic Research Agenda **SRA**, **IFR**, **Robotics Handbook**, **WTEC** our own (**ECHORD's**).
 - Classified the ECHORD experiments according to these classifications.
 - Choose **SRA**:
 - Live effort.
 - Representative.
 - Extended the SRA classification according to the missing parts (identified in the ECHORD workshop in Vasteras 2011)

Strategic research agenda

- Introduction
- Product vision and application scenarios
- Application requirements
- Technologies
- Conclusions

Strategic research agenda – Application Scenarios

APPLICATION SCENARIOS	ROBOTIC WORKERS	ROBOTIC CO-WORKERS	LOGISTICS ROBOTS	ROBOTS FOR SURVEILLANCE & INTERVENTION	ROBOTS FOR EXPLORATION & INSPECTION	EDUTAINMENT ROBOTS
SECTORS						
INDUSTRIAL	■	■	■			
PROFESSIONAL SERVICE	■	■	■	■	■	■
DOMESTIC SERVICE		■	■	■		■
SECURITY		■	■	■	■	
SPACE	■	■	■		■

6

Strategic research agenda

ROBOTIC WORKERS

- Robots producing tasks autonomously
 - More flexible
 - Dangerous, dull and dirty jobs
 - Larger structures
 - But also micro and nano scale
- Must be:
 - Easier to program
 - Complex tasks: multipart assembly
 - Multiple robots

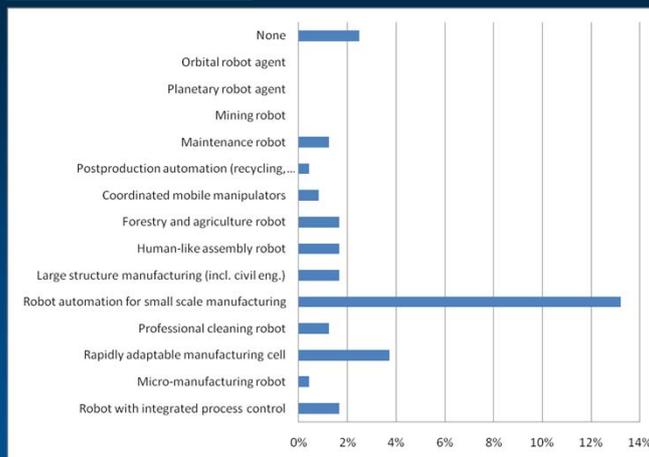

PRODUCT VISIONS

LARGE STRUCTURE MANUFACTURING (INCL. CIVIL ENG.)	ROBOT WITH INTEGRATED PROCESS CONTROL
RAPIDLY ADAPTABLE MANUFACTURING CELL	COORDINATED MOBILE MANIPULATORS
HUMAN-LIKE ASSEMBLY ROBOT	ROBOT AUTOMATION FOR SMALL SCALE MANUFACTURING
POSTPRODUCTION AUTOMATION (RECYCLING, RE-MANUFACTURING)	MICRO-MANUFACTURING ROBOT
MAINTENANCE ROBOT	FORESTRY AND AGRICULTURE ROBOT
MINING ROBOT	PROFESSIONAL CLEANING ROBOT
ORBITAL ROBOT AGENT	PLANETARY ROBOT AGENT

ECHORD according to SRA

ROBOTIC WORKERS

Strategic research agenda

ROBOTIC CO-WORKERS

- Robots working directly with and for humans
 - At Work, in public, at home or in space
 - Tele-operated or autonomously
- Must be:
 - Must be safe and compatible with humans

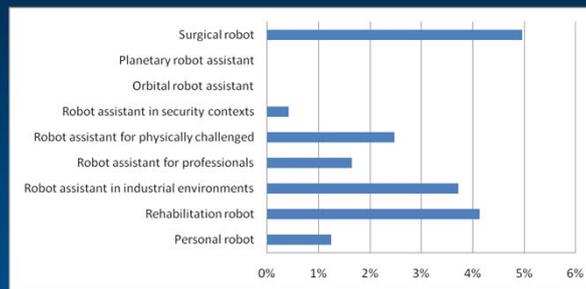

PRODUCT VISIONS

ROBOT ASSISTANT IN INDUSTRIAL ENVIRONMENTS	ROBOT ASSISTANT FOR PROFESSIONALS	SURGICAL ROBOT
REHABILITATION ROBOT	PERSONAL ROBOT	ROBOT ASSISTANT FOR PHYSICALLY CHALLENGED
ROBOT ASSISTANT IN SECURITY CONTEXTS	ORBITAL ROBOT ASSISTANT	PLANETARY ROBOT ASSISTANT

ECHORD according to SRA

ROBOTIC CO-WORKERS

Strategic research agenda

LOGISTICS ROBOTS

- Robots moving goods and people:
 - Factory warehouses
 - Hospitals
 - Our transportation networks
- Will need
 - Fleet management systems
 - Advanced sensing

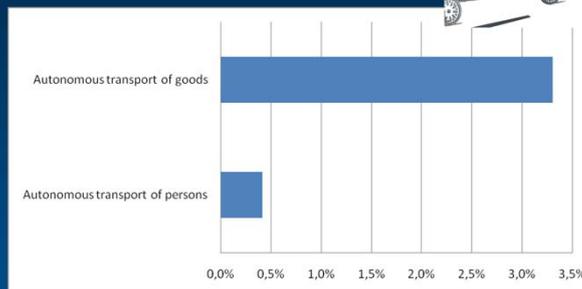

PRODUCT VISIONS

AUTONOMOUS
TRANSPORT
OF GOODS

AUTONOMOUS
TRANSPORT
OF PEOPLE

ECHORD according to SRA

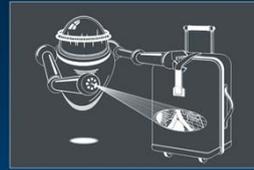

LOGISTICS ROBOTS

Strategic research agenda

ROBOTS FOR SURVEILLANCE & INTERVENTION

- Robots protecting citizens against security threats:
 - Homes
 - Public buildings
 - Industrial sites
 - Country borders
- Will need
 - Cognitive capabilities
 - Decision making
 - Planning
 - Situation awareness

PRODUCT VISIONS

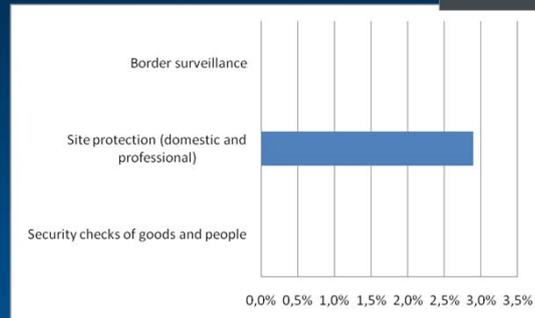

BORDER SURVEILLANCE

SITE PROTECTION (DOMESTIC AND PROFESSIONAL)

SECURITY CHECKS OF GOODS AND PEOPLE

ECHORD according to SRA

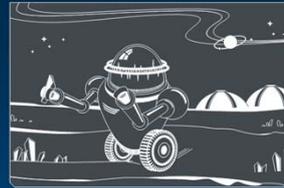

ROBOTS FOR SURVEILLANCE & INTERVENTION

Strategic research agenda

ROBOTS FOR EXPLORATION & INSPECTION

- Robots operating in:
 - Inaccessible.
 - Dangerous scenarios.
- Will need
 - Higher levels of autonomy.
 - Reliable levels of operation.

PRODUCT VISIONS

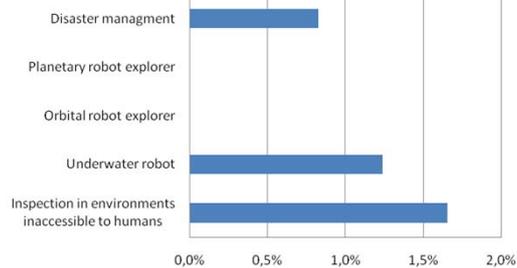

ECHORD according to SRA

ROBOTS FOR EXPLORATION & INSPECTION

Robots for exploration & inspection

Strategic research agenda

EDUTAINMENT ROBOTS

- Robots educating and entertaining humans:
 - Educate children
 - Provide social companion to elderly
- Will need
 - Cognitive capabilities
 - Multi-modal communication
- Must have
 - Sufficient functionality to generate novelty and fascination

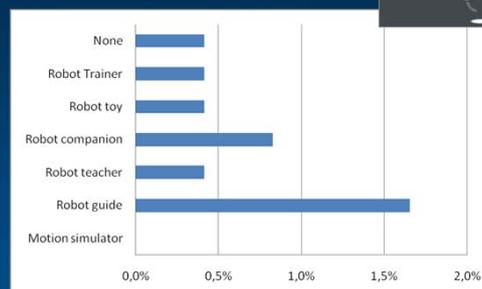

PRODUCT VISIONS

MOTION SIMULATOR	ROBOT GUIDE	ROBOT TEACHER
ROBOT TRAINER	ROBOT COMPANION	ROBOT TOY

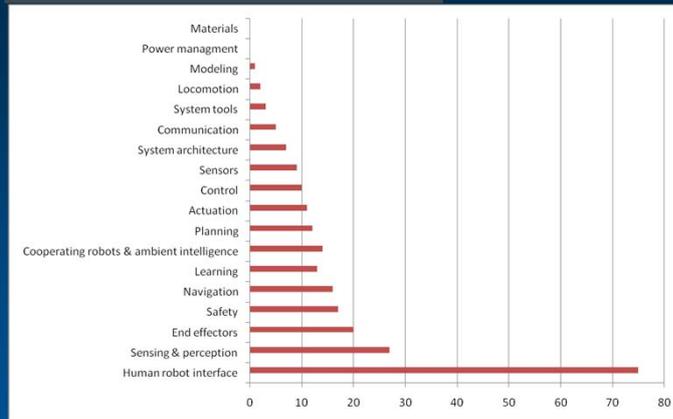

ECHORD according to SRA

EDUTAINMENT ROBOTS

ECHORD according to SRA

TECHNOLOGIES

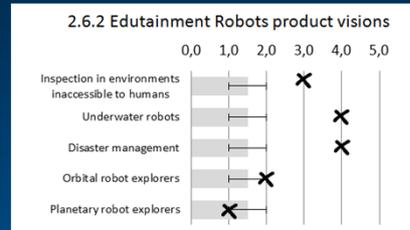

The Delphi Query

- Experts (you!) will classify:
 - Impact of basic **technologies** in the future of robotics.
 - Social and economic impact of the **product visions** and **application scenarios**.
- Reaching consensus
 - Two rounds.
 - First round – classification only
 - In the second round (in the afternoon) experts will have access to the results of the first questionnaire.

The Delphi Query

- Second questionnaire
 - Preferably on paper.
 - We will be in this room all day.
